

This is to certify that
Aseptika Ltd

LDH House, Suite 5, Parsons Green, St Ives, PW27 4AA, United Kingdom

Has been assessed
by Ed Cradock for IT Governance Ltd
against the Cyber Essentials Scheme Test Specification

Level of certification: Cyber Essentials PLUS

Scope: Internet facing infrastructure for Aseptika Ltd. including firewalls, and routers covering all health and care data processing in the UK.

Certification date: February 5th, 2019

Recommended re-assessment date: **February 4th, 2020**

Certificate no.: 8241089565564290

This Certificate confirms that the organisation named was assessed against the Cyber Essentials Requirements dated June 2014, and at the time of testing, the organisation's ICT defences were assessed to meet the Requirements. Cyber Essentials Certification indicates that the organisation has implemented a sensible baseline of organisational cyber security only, and implies no guarantee of effective defence against commodity cyber attacks circumventing this baseline. Organisations are recommended to define and understand the risks to their organisation and take all appropriate action to mitigate or reduce any issues, which may require a greater degree of rigour or technical investment than is required for Cyber Essentials alone.
